

MARITIME BATTERY SYSTEMS

Engineered for real world vessel integration

PRODUCT PORTFOLIO

KAPTEIN SERIES (NMC)

High-performing maritime battery systems for demanding vessel applications.

NAVIGATOR

High-energy systems for maximum range and performance.

COMPASS

Compact and powerful solution for a wide range of vessel types.

COMPASS CORE

Space-optimized energy system for efficient integration.

ATLAS SERIES (LFP)

Robust and cost-efficient energy storage for inland, retrofit and commercial vessel applications.

EOH 1.0

Reliable and scalable solution for essential power needs.

EOH 1.1

Next generation system with enhanced energy density and flexibility.
